

MAKING SOLUTIONS HAPPEN

MAKING SOLUTIONS HAPPEN

For over 27 years, K-Tec Systems has assisted companies in making better products by helping them control their temperature, pressure, and flow during their manufacturing process. Headquartered in Southeastern Michigan, our company is a global manufacturer, distributor and engineering integrator of temperature sensors, wire harnesses, and control systems.

At K-Tec Systems, we don't just sell products; we engineer new solutions to our customer's specifications, install, and service them. It's how we differentiate ourselves from our competitors. Our passion is to help our customers collect accurate data, not just numbers. We maintain an extensive database of quality products along with dedicated specialized staff and partners to engineer your solutions.

I invite you to connect with our team or visit our new website to discover how K-Tec Systems' cost saving solutions can help you make high quality products while supporting a high level of productivity.

Cathy Koch
Founder, President & CEO

WHO WE ARE

At K-Tec Systems, we are dedicated to providing our clients with the highest quality and most innovative solutions to measure and control their processes with precision. K-Tec Systems is well known as a trusted source for accurate and reliable temperature, flow, and pressure measurements.

OUR VISION

K-Tec Systems is fully committed to re-establishing the importance of quality and accurate test measurements over price. To give this new energy and raise the expectations, K-Tec Systems embodies a culture that is based on creativity and learning while staying intensely focused on quality.

OUR TEAM

K-Tec Systems has a unique collaborative team culture. In our company, innovation and growth are strongly supported by everyone. We all value our corporate culture and commitments and use our talents to serve you with cost saving solutions without compromising quality.

WHO WE SERVE

- Aerospace
- Energy
- Heat Treatment
- Printing
- Automotive
- Food
- Lighting
- Rail
- Chemical
- Government & Defense
- Packaging
- Utilities

K-Tec Systems offers an expansive line of products and solutions that span many industries worldwide. You will find our products on vehicles, duty-trucks, planes, plant floors, test tracks, medical equipment, brew tanks, ice cream shop freezers, household appliances...

OUR CUSTOMERS

WHAT WE DO

- Engineering & design
- On-site calibration & repair
- Manufacturing
- Prototype & testing
- Inventory management & tracking
- Personal & experienced customer support

OUR CAPABILITIES

- New ERP and new e-commerce website to streamline our workflow processes
- Learning center to teach our customers how to collect accurate measurements
- Thermocouple and wire harness manufacturing
- 17025 certified lab and ISO 9001 company certification (QS9001-16949)
